

7 Simple Tips To Prepare Your House To Sell

Taking the time to create a positive first impression of your home can help boost its selling potential! Learn how with these simple tips!

How To Wow Potential Buyers

- **Do a deep clean** — a clean home tells buyers that it is well-maintained and ready for them to purchase
- **De-clutter** — donate, discard, or store items that may be unappealing to the buyer
- **Let the light in** — bright rooms feel warm, inviting, and attractive to buyers
- **Do the minor repairs** — replace light bulbs, fix leaky faucets, and make sure all your doors open and close smoothly to give your home a new feel
- **De-personalize** — remove any family photos or personal keepsakes to allow buyers to picture themselves in the new space
- **Add curb appeal** — tidy up the yard, trim the shrubs, and add a nice doormat to welcome visitors
- **Street numbers** — paint or replace the street numbers on your house to make them feel new and more visible
